Attn: Joan Tanaka

Dear Joan,

We received a Second notice today regarding our intent to negotiate. This letter informs us that we must respond by today. This claim and notice should be sent to Wolverine Tube Inc in Decatur Al. as they are the responsible party handling claims related to the Wolverine Tube Canada Fergus site. We turned all of the previous information over to them, and they informed us they would be in touch with the EPA regarding this site.

Sincerely,

Don Wellington

President

Great Lakes Copper
